

# R.F. Bumpus Carpool Procedures

## SAFETY IS OUR #1 CONCERN

There are two entrances to the Bumpus campus. Carpool turns in at the 2nd entrance off of Flemming Pkwy.

### MORNING CARPOOL

- Students can exit the car at 7:30. If students arrive at 8:27 or after, students should be dropped off in the front of the building because they will likely be tardy and parents will need to come sign them in for the day.
- Students are dropped off in a single line
- Students are dropped off in the unloading zone marked by signs - at least 7 cars can drop off at one time all along the sidewalk.
- Please do not cut across the parking lot.

### AFTERNOON CARPOOL

- We can usually get all students loaded in cars in 20-25 minutes. Please allocate enough time to get to your next destination.
- Please be patient - we have more carpool riders than ever.
- Students are picked up in a triple line. Students are responsible for seeing his/her car. If a student does not enter the car when it is in the loading zone then the parents will have to go around and get back in the carpool line.
- A school representative will release all cars at one time...please do not cut across the parking lot.
- A student can only get in his/her car in the carpool loading zone which is along the covered sidewalk.
- For safety reasons, parents cannot park in the parking lot and have his/her student walk across the carpool line to get in the car.
